

# PLARAD<sup>®</sup> MESSENGER

THE OFFICIAL COMPANY NEWSLETTER

## Streamline your workflow with Plarad's rental tool container

Are you tired of waiting endlessly for tools for remote job sites? Plarad has your solution. Our cutting-edge tool rental container streamlines your operations.

Inside, you will discover a wide array of tools tailored to your needs, with the possibility to choose the specific tools required for your project from our selection of battery, electric, hydraulic, and pneumatic torque wrenches, hydraulic/battery pumps, measurement tools, and special reaction arms. It is a one-stop-shop for all your applications, ensuring no more delays. Our containers are available worldwide, either directly from us or through our local partners.

Whether you are in wind farms, mining areas, or construction sites, Plarad's rental tool container is your ultimate resource. Bid farewell to prolonged tool waits and unnecessary expenses. Plarad saves you time and money, making your operations more efficient.
